EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven duBois on Sep 12, 2005.

The application has been amended as follows:

Claim 7

A support system structured to support at least a portion of at least one supported object, said support system comprising:

a wire carrier including:

an elongated bar having a thickness having at least one coil spring portion formed therein having a diameter;

a first arm having a proximate end connected to a first portion of said coil spring portion and a distal end;

a second arm having a proximate end connected to a second portion of said coil spring portion and a distal end structured for contact with said distal end of said first arm;

said coil spring portion being structured to resiliently bias said distal end of said first arm in contact with said distal end of said second arm for assisting with

support of said supported object; and a release of the object upon the application of a predetermined threshold force on the object;

a strap having an enclosure portion operatively associated with at least a portion of said coil spring portion of said wire carrier; and
a redundant release system operatively associated with said strap, wherein said redundant release system includes at least one button threadedly attached to a portion of said strap.
